

Approval from Head of Department of grant application to federal American funding agencies

This form must be signed by the Head of Department and the Principal Investigator/senior investigator involved in the project before application submission. This requirement also regards applications for which another organization is the main applicant.

If an application has more than one PI and/or senior investigator, separate forms from all involved departments should be signed by the investigator and their respective Head of Department.

The signed form is to be uploaded on the following website:

<https://form.diariet.uu.se/medfarm/for-medarbetare/approval-american-funding-agencies>

Funding Agency:
Funding Opportunity Title:
Funding Opportunity Number:
Project Title:
Name of PI/Senior Investigator (at UU):
Department of PI/Senior Investigator (at UU):
Name of Head of Department:

Certification Statement

By signing this document, I certify that:

- 1) The PI is employed at the above stated department at Uppsala University, and can participate in this application for research funding.
- 2) The department has reviewed and approved the research proposal and budget.
- 3) The department is aware of the fact that indirect costs are not eligible according to the regulations of some federal American funding agencies (e.g., NIH). The 8% indirect costs allowed by NIH must only be used for costs directly related to compliance to NIH's policy regulations. These funds must be placed in a central account, regardless of whether Uppsala University is the main or sub applicant.
- 4) If the project is granted funding, the PI/senior investigator and the department will take responsibility for the project being conducted according to the regulations and policies that the funding agency and Uppsala University have decided on (e.g., time reports are required by NIH, and internal ethical review is required for human subject research).
- 5) The applicant has the time and resources to conduct this project, and the research proposed to be funded by the federal American funding agency is not funded by other sources.
